Our Strategic Goals

01

Contribution to the National Food Security Targets

Contributing to achieving national food security targets in strategic commodities by expanding and diversifying foreign investments in countries with comparative advantages.

02

Empowering The Local Agri-Food Sector

Empowering the local agri-food sector through primary processes, supply chains, and agricultural technologies, contributing to self sufficiency.

03

Achieving Global Leadership in Grains & Diversified Products

Achieving global leadership in the grains and diversified products by enhancing trade capacities and integrating investments and strategic partnerships to ensure food sustainability.

What We Do

Enhancing Food Security 01

We strategically invest both locally and globally to support the availability of essential food and to bolster food security.

Economic Contribution 05

We enhance local capabilities and efficiently utilize available resources to contribute to economic growth & strengthen the agricultural GDP.

Empowering Local Agri-food 02

We address challenges within the local agri-food value chain to enhance self-sufficiency.

Driving Innovation 06

We support innovative technologies and practices to improve efficiency and sustainability across the agrifood value chain.

Accelerating Growth 03

We actively manage a diverse portfolio and incorporate SALIC's commercial role, through our local and international portfolio companies to create potential opportunities and new markets.

Promoting Sustainability 07

We enable sustainable agriculture, reducing environmental impact, and promoting resource conservation.

Fostering Partnerships 04

We build and maintain strategic partnerships with global leaders in the agrifood sector to share best practices.
